SERVICE OVERVIEW

Tax law is notoriously one of the most complex areas of law, and if you are involved in a dispute with the IRS over back taxes or penalties, it can be even more challenging. Unlike other debts, it is difficult to eliminate tax debts through bankruptcy. Avoiding the IRS won't help, especially as the agency becomes more aggressive with its investigations and audits.

Our firm can help you find the best way to resolve your tax disputes. Examples of services available to reach a favorable IRS outcome include:

- Entering into payment agreements
- Obtaining IRS agreement to an offer in compromise
- Negotiating the release of federal tax liens and levies
- Filing innocent spouse claims
- Other creative solutions

TAKE ACTION TODAY

Even if you're not facing immediate action from the IRS, don't wait until it's too late. Knowledge is power, and talking to a tax attorney can help you understand what to expect and how to protect yourself. With the right advice, you can take action today that might help you avoid bigger problems tomorrow.

Once the IRS believes you have an overdue tax liability, they will send you a series of notices or demands. If you don't pay your tax debt within a matter of days, you could be facing an IRS lien. Once a lien is filed against you, it may prevent you from obtaining credit, affect your ability to get credit cards, car loans, or a mortgage, and even impact security clearances and rental applications.

Additionally, the IRS can levy your bank accounts, wages, and more.
